MUST KNOW FOR BETTER HEALTH

Thursday, February 27, 2014
5:30 –6:30 p.m.
OLEAN FAMILY YMCA

Free Educational Program:

5:30–6:30 p.m.

“Routine General Health Screenings for Women and what you need to know”

Dr. Angela Adomako (OB/GYN) and Renee Hansen, Certified Nurse Midwife, will discuss what each woman should know about screenings, beginning at age 13. As February is Go Red for Women month, presenters will also address heart disease, since some screenings are related to heart disease. Although both experts practice Obstetrics and Gynecology, a large part of their practice is women’s health screenings, not just pregnancies. The presentation will end with a time for questions and answers.

Angela Adomako, M.D., received her B.S. at Central Michigan University and her M.D. from Albany Medical College. She went on to complete her OB/GYN residency at St. Luke’s–Roosevelt Hospital and Albany Medical College. She has been with the Olean Medical Group for two years.

Renee Hansen, CNM, received her Associates Degree in Nursing at Jamestown Community College in Olean and her Bachelor’s in Nursing at Kaplan College in Fort Lauderdale, Florida. She went on to achieve her Masters in Nurse Midwifery at the Midwifery Institute at Philadelphia University. Renee has worked at Olean Medical Group for several years.

Mrs. Hansen and Dr. Adomako are both part of the team that make up the Women’s Health & Wellness Center at Olean Medical Group. They are dedicated to providing treatment options for all women at every stage of their lives.
