

We Invite You to Join Us: 5 Days of Action

Last April, the YMCA Guardians, a group of local Y leaders committed to activating the YMCA movement's power to address child sexual abuse, piloted the **Five Days of Action**. This was a week-long effort to engage YMCAs in raising awareness in their communities as a part of Child Abuse Prevention Month.

After much success last year, YMCAs and other youth-serving organizations across the country will be taking part in Five Days of Action to raise the profile of this ever present threat again this year, from **April 24th-28th**—leading up to Healthy Kids Day.

The YMCA Guardians Against Child Sexual Abuse has compiled accessible tools from experts such as Darkness to Light, Praesidium and Stop It Now.

They've created a [toolkit](#) that includes email templates, social media campaigns and more to make it easy for your organization to engage your community in the fight against child sexual abuse.

Please join us and sign-up below to be a part of this incredible movement.
